Hi, [REDACTED]

Has there been any update on this?

Thanks,

kath.

Subject: RE: FCC Mobility Fund II

Hi, [REDACTED]

As you know, part of the MF-II process was for carriers to specify particular phone sets that would be acceptable for testing. We are relying on volunteers here in New Hampshire to raise funds, purchase phones, chargers, and software as well as donate their time and mileage to test service areas.

Unfortunately, we realized a couple of weeks ago that two T-Mobile Samsung Galaxy 8 phones were purchased instead of the Samsung 8 Note or Active versions that T-Mobile specified. We've corrected the issue going forward by changing out those phones, but in the meantime we have several hours of testing that was done on the Samsung Galaxy 8 phones listed below:

IMEI	Brand	Style
355982082268418	Samsung Galaxy	G950U
355982083098301	Samsung Galaxy	G950U

We were wondering if T-Mobile would be willing to support a waiver to allow the early results of these two phones to be submitted and considered so that we don't have to send our volunteers out to repeat their testing in areas they've already covered. I appreciate your thoughtful consideration of our request. Let me know if you need any additional information.

kath.

Hello, Kath,

[REDACTED] asked me to get back to you on your questions regarding MF II. I will be out of the office the rest of the week, but I would be happy to talk to you next week. Could you give me an idea of what your questions are about?

Hi, [REDACTED]

I have some questions about T-Mobile's filings in the Mobility Fund matter. Are you the attorney handling that?
